

**MORE Birds of Coastal Southern California**  
**An Intermediate/Advanced Visual Workshop (Winter/spring, 2017)**  
**Bird List**

Below are the species that will be covered thoroughly. Others will be mentioned and sometimes discussed briefly. Species in italics are in *Birds of Southern California--an Introduction to Birds* (regular fall workshop). They will be reviewed and compared with new species, but you should be familiar with them already. Additional information will be given about many of them. (The numbers in brackets after each review bird are the numbers of the groups in which they were discussed in the Intro. workshop.)
