

OC Coastal CBC CAOC January 2, 2023

Do not use any old versions.

- ✓ Rare Bird Report Forms are due the day of the count.
- ✓ Give your **completed** Tally Sheet as well as all required "Rare Bird Report Forms" to the Circle Compiler.
- ✓ Record All your Teams effort (Time and Miles) in the table at the end of this form.
- ✓ Only this "official" Tally Sheet will be accepted (No other tally sheet, nor eBird reports will be accepted).

(SL) - State Location where bird was seen (name of park, creek, or community). And the location within that area.
 (DS) - Describe Sighting. Use "Rare Bird Report Form" and give detailed information about the bird (photo helpful).
 Any bird that is not listed on this Tally Sheet should be added to **Additional Species**. And, a Rare Bird Report form, as well as stating the location of where the bird was seen, is required. National Audubon may require this additional documentation.

Please provide names of participant and the time/miles report, found at the end of this file.

Contact Coastal Circle compiler with questions or concerns: **Bettina Eastman (714) 293-1079**.
Email form to: bettinae24@gmail.com.
Mail to: Bettina Eastman, 21572 Kaneohe Lane, Huntington Beach, CA 92646-7859.

Additional Species not on the list: Use Rare Bird Report Form

Species:	Location:

Sea & Sage Audubon Coastal Christmas Bird Count — Report from Area Leaders — (page 7)

Coastal Count

Area #:

Leader:

Date:

- I. **Enter names and contact info** below for all participants (leaders, observers, counters, and talliers). Suggestion: fill in participants' names and contact info BEFORE count day. Then you can turn in a nice, printed copy and not do it by hand at the last minute. I need to be able to read what you enter. I can give you an electronic form if you want.
- II. **Calculate time and mileage statistics on this form.** It is VERY IMPORTANT that you gather accurate effort data from your counters.
- III. **Collect “State Location” notes from each party.** Individual tally sheets should contain this information.
- IV. **Combine totals from all parties in your area on ONE tally form to turn in to the compiler.** Written descriptions of any birds not on the tally sheet or marked (DS) must be included with your report. Have observers fill out a “Rare Bird” form for each rare sighting. Rare birds with inadequate written descriptions will be dropped.
- V. **Turn in this form with attached combined tally sheet, Rare Bird report forms and the individual tally sheets from your various parties.**

Please join us on Zoom the NIGHT OF THE COUNT for the compilation meeting and celebration! We'll be meeting on Monday, January 2nd, at 7:00 p.m. The link will be provided to Area Leaders, ahead of the count, so it can be shared with all participants. Please invite all participants, everyone is welcome

Earliest Start Time				Latest End Time				Number of feeder-watchers		Total hours by feeder-watchers		

PARTY HOURS AND MILES: A Party is any group of people birding together, or even one person birding alone. If the same group is together all morning and stays together all afternoon, that's one party. But, if the same people are together all morning, then later split into 2 groups they become two new parties (for a Total of 3 groups). It does NOT matter how many people are in each party. The CBC statistics are based on "parties", not "people". Estimate how much of your daytime birding efforts were on foot, in a vehicle, or on a boat. "Night" is before 6:30 AM or after 5:30 PM. Keep nighttime activities (owling & raiting) separate from daytime. If you take any long breaks (like for lunch) subtract that from your total hour.
