

## Raven Lite 2.0.5 Install (adapted by Doug Lithgow)

Important!! Go to Cornell Lab E-Store <https://www.ravensoundsoftware.com/raven-lite-downloads/>

to obtain a license through your email. Click on "Get a free license" This will be needed in step 5. This document is based on the instructions you will receive from your license email. Follow the directions to "purchase" your free copy for \$0.00.

Note: is you already have Raven Lite 2.0.3 or 2.0.4, you do not need to update unless you wish to. There are small differences between the three versions.

To install Raven Lite 2.0.5, please follow these steps in order:

1. Download a Raven Lite 2.0.5 installer by visiting the Raven [homepage](#), click on 'Software' in the middle top of the page then select "Raven Lite". Click on "Order Free License" and follow steps to purchase for free. Directions will come in your email
2. From your received email, make sure you copy the serial number in the Cornell email, then open the Raven Lite installer. Click on the correct version for your system.
  - o Windows tip: Install on the default path (this is highly recommended)
  - o Mac OS X tip: Install while logged in as an administrator
3. Open Raven Lite.
4. Paste the copied serial number into the Registration GUI. There is now a second window to insert your email address.  
**Serial number: ZZZZ-JJJJ-ZBBB-EEEE-Z111-FFFF**

5. Click the Register button.
6. Be sure to keep a copy of your Raven Lite serial number in case you ever need to re-install Raven!
7. Note: You may need to restart Raven Lite twice after loading downloads. Just follow the prompts.

Learn how to use Raven Lite with our new Raven Pro introductory [video tutorials](#) and the Raven Pro [Users' Manual](#).
